## EXPERIENCE

**NetStar Overseas Software LLC, Front-End Developer** Jan 2024 – Present

- Delivered 30+ interactive features, increasing client engagement by 50%.
- Transitioned from Intern to Full-time Developer based on strong performance (promoted within 5 months).
- Resolved 40+ frontend bugs, improving overall website load times by 25%.
- Built and customized WordPress websites, optimizing user journeys and reducing bounce rates by 15%.
- Specialized in implementing responsive designs and cross-browser compatibility, reaching 98% device support rate.

**Oasis Infobyte, Front-End Developer Intern** Jun 2023 – Aug 2023

- Devised 3+ web applications, highlighting frontend skills with React and Tailwind CSS.
- Collaborated with a team of developers, adapting to agile workflows and real-world client scenarios.
- Completed all project sprints on time, improving project delivery speed by 20%.

**Opiant Technologies, Software Development Intern** Jul 2021 – Aug 2021

- Enhanced Java development skills by contributing to 2 core modules in internal applications.
- Debugged and optimized code, resulting in a 15% reduction in reported application crashes.
- Strengthened object-oriented programming (OOP) fundamentals through daily coding tasks and mentorship sessions.

## PROJECTS

**RBU-Ecommerce**
Assembled and launched a full-scale e-commerce platform for university essentials.

- Secured an INR 20,000 grant, validating the project's business potential.
- Enabled over 500 students to purchase apparel, textbooks, and accessories directly from the platform.

- Achieved 95% positive user feedback in initial pilot testing phase.
- **Demo**

**GitHub Profile Finder**

Build a GitHub Profile Finder app that lets users search developers by username or location, displaying their repositories and profile details in real time using the GitHub API.

- Integrated GitHub REST API to fetch dynamic user and repository data seamlessly.
- Added error handling and loading indicators to enhance UI feedback.
- Implemented debounced search to reduce API calls and improve performance.
